

## 0. TLDR

Selling the MAYC (Mutant Ape Yacht Club) #88 for 88 ETH

Why such a price?

Numbers matter, it is not the “sweep the floor” item...

What is the meaning of the #88 in the Chinese culture?

In Chinese culture, the number 8 is considered extremely lucky and is associated with wealth and prosperity. This is because the phonetic pronunciation of the number 8 in Chinese sounds similar to the word for 'prosper' or 'wealth' (發, pronounced 'fa') in Chinese. So, the number 88 would be considered particularly lucky because it doubles the luck and prosperity associated with the number 8, making it a very favorable number. In contrast, the number 4 is considered unlucky in Chinese culture because it sounds similar to the word for 'death' (死, pronounced 'si').

## 1. Don't trust verify

**Address:** 0x2dc2cf51fe5744c8930d22353873e6a43f58dddf

**Message:** MAYC Mutant Ape Yacht Club #88 for 88 ETH

Meme very WOW 🐸

*(note the new lines and emoji)*

## Signature Verification

✓ Message Signature Verified.

<https://etherscan.io/verifiedSignatures>

Just [looking on Etherscan](#) is not enough, anyone could pretend it is me:

The screenshot shows the Etherscan interface for a specific transaction. At the top, it says 'FILTERED BY TOKEN HOLDER' and shows the address '0x2dC2Cf51fE5744c8930d22353873E6a43F58dDDf' with a balance of '1 MAYC'. Below this, there are tabs for 'Transfers', 'Inventory', 'Info', 'NFT Trades', and 'Contract'. The 'Transfers' tab is selected. A search bar shows the address '0x2dC2Cf51fE5744c8930d223...'. Below the search bar, it says 'A total of 1 transaction found'. There is an 'Advanced Filter' button and pagination controls. The transaction table has columns: Txn Hash, Method, Age, From, To, and Item. The transaction shown has a Txn Hash of '0x7b4a21d1a2edee4f3...', Method 'Match Ask Wi...', Age '232 days 6 hrs ago', From 'l3n13.eth', To '0x2dC2Cf...3F58dDDf', and Item '#88' with a cartoon character icon. At the bottom, there are more pagination controls.

You need to verify the signature to be sure...

## 2. Why am I selling it?

Cost of living. Bear market. Personal circumstances. Working on a project. Yield farming dried up a long time ago. I'm using Aave to deposit ETH and borrow USDT but I'm slowly running out of funds...

Didn't have a job in a while - I'm working on [BaseX.com](#) - new definition of value - accounting for externalities - measuring impact. Super essential in the context of climate change.

Current status:

- Solopreneur, 1 shadowy super coder from Romania, half my age
- Looking for co-founder
- Looking for grants
- Looking for startup accelerators, incubators
- Too busy / overwhelmed to onboard new users

Selling the MAYC #88 will buy me more time to figure things out.

### 3. Referral bonus: 10%

I receive 88 ETH

You receive 8.8 ETH

At the current prices (Friday 1st September 2023) that's almost \$15k

#	Coin	Price
★ 1	Bitcoin BTC	\$25,972.12
★ 2	Ethereum ETH	\$1,644.99
🔍 1645 * 8.8		
📄 1645 * 8.8 = 14,476		

\$15k for an email / message on Telegram / DM on Twitter is a good deal.

### 4. Negotiation

This is APE #88 and the only price that makes sense is 88 ETH

Of course it is many multiplies above the floor but the number is very special, one of a kind.

Kicker: [#88 Network State Genesis](#)

*(I will send you a very special passport NFT too)*

## 5. Safety first

Don't trust, verify.

Don't be silly. Don't get scammed.

I think this is safe, reliable, trustworthy, established: <https://otc.sudoswap.xyz/>
