

0. Summary

Selling the MAYC (Mutant Ape Yacht Club) #88 for 88 ETH

Why such a price? Numbers matter, it is not the “sweep the floor” item...

What is the meaning of the #88 in the Chinese culture?

In Chinese culture, the number 8 is considered extremely lucky and is associated with wealth and prosperity. This is because the phonetic pronunciation of the number 8 in Chinese sounds similar to the word for 'prosper' or 'wealth' (發, pronounced 'fa') in Chinese. So, the number 88 would be considered particularly lucky because it doubles the luck and prosperity associated with the number 8, making it a very favorable number. In contrast, the number 4 is considered unlucky in Chinese culture because it sounds similar to the word for 'death' (死, pronounced 'si').

Offering 20% referral bounty. You can do the math. **17.6 ETH** at the current prices is around **\$30k**

I would totally send an email, tweet, Telegram, WeChat for **\$30k**:

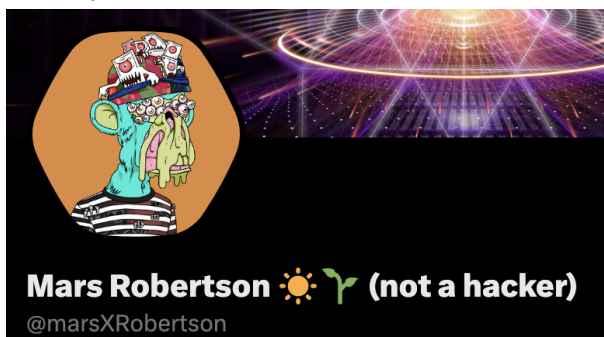

Hey hey, I know you are a big fan of crypto, Web3, NFTs, maybe you know someone...

嘿嘿, 我知道你是加密货币、**Web3**、**NFTs**的大粉丝, 也许你认识某个人...

2. Why am I selling it?

Cost of living. Bear market. Personal circumstances. Working on a project. Yield farming dried up a long time ago. I'm using Aave to deposit ETH and borrow USDT but I'm slowly running out of funds...

Didn't have a job in a while - I'm working on [BaseX.com](https://basex.com) - new definition of value - accounting for externalities - measuring impact. Super essential in the context of climate change.

Selling the MAYC #88 will buy me more time to figure things out.

4. Negotiation

This is APE #88 and the only price that makes sense is 88 ETH

Of course it is above the floor but the number is very special, one of a kind.

(I will send you this very special passport NFT too)
